

# KONSTANTINOS CHRISTOPOULOS

## PROFILE

Msc graduate in Computer Science & Engineering with a passion for solving real-world problems through software engineering, robotics and machine learning. My diploma thesis focused on intelligent robot navigation in dynamic pedestrian scenarios, combining LiDAR perception with decision-making algorithms.

## KEY EXPERTISE

Full-Stack Web Development,  
Robotics, Machine Learning

## HOBBIES

Basketball, Chess, Travelling

## EDUCATION

### Department of Computer Science & Engineering

University of Ioannina

2018-2025

Thesis: Robot Navigation in Presence of People

Grade: 7.21

## ACADEMIC PROJECTS AND REASEARCH

- Full Stack Web Application Deployment
  - Developed full-stack applications utilizing the **Spring Boot** framework for the backend.
  - Built the user interface (frontend) using **Thymeleaf** and managed data through **MySQL** databases.
- Software Development for Autonomous Robotics
  - Designed and implemented custom **ROS** modules for real-time **pedestrian detection** and robot avoidance using **LiDAR** data.
  - Applied **Machine Learning** techniques to enhance the mobile robot's perception and decision-making autonomy.
- Artificial Intelligence
  - Implemented a neural-network in java for Classification.
- Information Retrieval
  - Built an efficient information retrieval program using the **Lucene** library in **Java**.

## SKILLS

**Tools & Platforms:** Git, GitHub, Gazebo, LaTeX

**Programming Languages:** Python, Java, C/C++,

**Frameworks & Libraries:** Spring Boot, ROS, PyTorch, TensorFlow

**Databases:** MYSQL

**OS:** Windows, Linux/Ubuntu

## LANGUAGES

**Greek** – Native

**English** – (ECCE B2 level)
